The Grand Rapids 2030 District is a public-private partnership committed to creating high-performing buildings that increase marketability and profitability for property owners, improve their environmental impact, and strengthen the greater community’s vibrancy.
Working together to reduce CO2 in our city:

- Energy
- Transportation
- Water
The world is currently undergoing the largest wave of urban growth in human history.

More than half of the global population is now concentrated in urban areas, and by 2060 two thirds of the expected population of 10 billion will live in cities.

By 2060, the world is projected to add 2.5 trillion ft$^2$ of buildings, or an area equal to the entire current global building stock.

This is the equivalent of adding an entire New York City to the planet every 34 days for the next 40 years.

You're Invited!

City of Grand Rapids PACE Launch Celebration

Mayor Rosalynn Bliss, the City of Grand Rapids and the GR2030 District invite you to celebrate the launch of the Grand Rapids PACE (Property Accessed Clean Energy) program on Monday, April 16, 2018, from 4-6 p.m. at Founders Brewing Company, 235 Grandville Ave. SW, Centennial Park.

A brief program will be followed with beer & appetizers provided by the Energy Alliance Group.

Space is limited, so please click here to register by Monday, October 9th.
SMALL BUSINESS ENERGY ASSISTANCE PROGRAM

The Grand Rapids 2030 District is providing a unique opportunity for small business, non-profits, houses of worship, multi-family & educational institutions to lower their monthly utility costs.

APPLY NOW!

This program will provide a FREE building audit to uncover systems and/or processes that are increasing your energy bills. A team of experts will work with you to develop a strategic plan and connect you with resources that will increase the profit from energy efficiency upgrades.

Benefits for qualified businesses include:

- **FREE** energy baseline/ energy benchmark of your property
- **FREE** customized building audit and financial analysis
- Energy savings through profitable upgrades and property value increase from lower operating costs.
- Show leadership with public acknowledgement of your participation in pilot program
- Access to special incentives that can drastically reduce the cost of new equipment.

Apply here to be considered for this pilot program. A limited number of buildings will be accepted based on available funding.

This program is supported by the U.S. Department of Energy
